

JLT-5040 2-in-1 Sealing and Shrinking Machine

Technical features:

- Seal and shrink in one go
- The shrinkage of the packaging can be seen through the glass cover
- The sealing is made of PITFE ceramic, which is durable and will not burn or shatter
- Equipped with a pinhole device for rolling adhesive film, the air inside the film is fully discharged
- Sliding film bracket can hold various specifications of films
- Low power consumption, averaging only 2.5KW per hour
- Continuous long-term operation will not cause the surrounding environment to become too hot
- Covering an area of only 1 square meter, only one person is needed to complete the entire shrink wrap
- After packaging, the product automatically outputs, reducing time and doubling production volume
- Suitable for various types of shrink films such as PVC, PP, POF, etc

Parameters:

Maximum sealing size: L550 * W400

Maximum packaging size: L+H < 550; W+H < 400

Use power supply: 220V 50HZ 2.5KW/H

Work efficiency: 500-800/H

Dimensions: L1360 * W7300 * H1450

Net weight: 125KG
