

Automatic Quantitative Filling and Packaging Machine Pillow Type + Triangle Type JS-34A

Pillow
type packaging

Triangular
Type Sealing

Product Features:

- Equipped with photo-cell device to ensure to ensure extremely accurate bag forming, sealing and cutting
- This model produces triangle type packaging and pillow type packaging, two functions in one machine
- Package form can be quickly changed in only one minute
- Equipped with product counting device
- All components in direct contact with the product are made of stainless steel, conforming to sanitation standards
- Convenient adjustment of package size
- The entire procedure from weighing, bag forming, filling and sealing to cutting and packaging is fully automatically operated
- We can design machines in accordance with your request
- Machine can equip vibration loading device for hard-flow product as an optional device.
- PLC control for ease & efficient operation.
- Pneumatic sealing for excellent packaging performance.

- Applicable packaging products: Granules, melon seeds, candy, sugar, peanuts, beans, tea, coffee powder, salt.....etc.
- Applicable packing materials: PET+PE+Aluminum Foil+PE, OPP+PE, other laminated heat-sealable materials.
- Standard Equipment: 1 toolbox containing, 1 box wrench, 1 hexagonal wrench, 1 Screwdriver. One set of Conveyor.
- Optional devices: Quantity warning device Date coder device. Product input conveyor

Specifications:

Packaging type	triangle type+pillow type (one machine two functions)
Packaging weight	3-50g (depends on product density)
Packaging size	100-260mm (unfolded film width), 40-80mm (product width), 50-170mm (product height) (other sizes are available upon request)
Packaging speed	30-60 bag/min.
Motor	1/2HP
Power source	110/220V,50/60HZ, Single phase (can be made upon request)
Machine dimensions	150 x 105 x 180 cm (Approximately)
Packing dimensions	280 x 124 x 300 cm (Approximately)
Net weight	350kgs
Gross weight	480kgs
