

ZR11-24 Fully Automatic Linear Hot Melt Labeling Machine

This machine is fully automatic linear hot melt labeling machine, suits for different industries for mineral water, soft drink, seasoning, wine and cosmetics and others. It is easy to adjust the label cutting knife, easy and accurate to use hand handle to adjust the position of cutting knife, the vacuum drum is made of high rigid material to monish friction and static. Changing the bottle parts within ten minutes. The vacuum manifold at the lower part of drum and cutter is made of heat&wear resistant material. This machine with advantage of compact design, floor space, used for many different bottles, high production capacity and so on. It is the best choice for clients.

Main Parameters:

Model: ZR11-24

Glue Way: Roll

Way of label: Curl label

Label on the vacuum drum: 4P

Length of labeling: 180-310mm

Suitable for bottle type: Ø57-100mm

Capacity: 15000-18000 bottles/hour

Height of label: 25-205mm

Material of label: PAPER.PP.BOPP.PVC.PE.ETC

Material of container (cylindrical bottle): PE.PET.GLASS.CAN

Power: 9-12Kw/380±10%V/50-60Hz

Compressed air: consumption 340-450L/min

Weight: about 2000kg

Dimensions (length*width*height)(mm): 2310*1770*1760
