

MK 204 Semi Pneumatic Vertical form Fill and Seal Packaging Machine

The MK-204 is a semi pneumatic vertical form fill seal packaging (VFFS) machine designed to package various sticky and non-sticky powder products. This vertical packaging machine uses auger dosing system to produce center sealed and 3 side sealed pouches / bags.

Adding to its versatility, the MK-200 series can be integrated with most filler for granules, liquids, pastes, sticky powders and food grains etc.

Application:

Milk powder, coffee powder, flour etc.

Features:

- Single Phase power supply
- AC drive for speed adjustment
- Batch cutting facility
- Automatic adjustment and correction of Pouch sealing
- Better pouch finish and sealing with clap type horizontal sealing jaws.

Alternate filling systems:

The 200 series VFFS packaging machines can be fitted with any one of the following fillers/ dosing systems

- Volumetric cup (telescopic)
- Volumetric Piston filler
- Volumetric Paste filling pump
- Auger filler

Technical Specifications:

Filling range	1 to 500 gms
Output Speed	up to 35 PPM
Packaging Material	Any heat sealable film, laminated film in roll srock
Bag Size	W: 30 to 150mm
	L: 60 to 300 mm
