

## Universal Pulverizes

This machine has wide application and is wide used for pharmaceutical industry, chemical industry, pesticide industry, foodstuff industry, grain industry and so on. This machine uses the relative motion between movable and fixed teeth disc, the raw materials to be crushed undertakes the comprehensive actions such as impacted by teeth, friction, impacted between raw materials, finally the raw materials to be crushed. Its features are simple and solid in structure, stable in operation, high I crushed efficiency. The crushed raw material can be discharged through the grinding chamber. Moreover, different size of raw material to be crushed can be got through exchanging screen with different mesh; its inner wall is processed finely. So it is smooth and level. It overcome the shortcomings existed in the old model such as roughness, accumulated powder. It makes the products of medicines; food stuff and chemicals and so on are in conformity with the requirements of state standard and meet the requirements of GMP.

### Technique Parameter:

Model	130B	180B	250B	320B
Spindle speed(r/min)	7000	7000	5000	4000
Capacity(kg/h)	2-5	10-30	50-250	80-300
Motor power(kw)	1.1	2.2	5.5	7.5
Fineness (mesh)	10-120			
Working noise(dba)	Less than 85			
Overall size(mm)	400*350*830	690*420*880	950*520*1250	960*520*1450
Weight (kg)	75	85	220	250
