

## *Pharmaceutical Filling Packing Machine*

Pharmaceutical filling packing machine is a high-tech product researched and developed by our company. It is suitable for products of liquid such as oral liquid, e-liquid, eye drop etc. It is widely applied for filling of products in such industries as food, cosmetics, medicine, grease, daily chemical industry, detergent, pesticide and chemical industry etc.

### **Characteristic:**

1. The contact material is SUS 316L stainless steel and others are SUS 304 stainless steel
2. The machine include bottle turn table, washing, dry, filling, capping, labeling, print date, container machine etc.
3. It has intuitive and convenient operation, measuring accurate, positioning precision
4. Fully in accordance with the GMP standard production and passed CE certification
5. No bottle no filling

### **Specifications:**

|                          |                                 |
|--------------------------|---------------------------------|
| <b>Filling Volume</b>    | 10-200ml                        |
| <b>Filling Capacity</b>  | 1000-3000BPH                    |
| <b>Filling Precision</b> | 0-1%                            |
| <b>Bottle Type</b>       | Plastic Bottle And Glass Bottle |
| <b>Voltage</b>           | 380V 50HZ 3 PHASE               |
|                          | 220V 50HZ 1 PHASE               |
| <b>Power</b>             | 1.5KW                           |
| <b>Net Weight</b>        | 800KG                           |
| <b>Dimension</b>         | 2300mm(L)                       |
|                          | 1500mm(W)                       |
|                          | 1900mm(H)                       |
