

# Automatic Collation Labeling Machine HYXLC-600

## Product Description

Two-dimensional code automatic collection to realize the integration of labeling collection, reduce the labor force in the production line and improve the production efficiency. equipped with hot stamping printer, code jet printer, heat transfer printer or code jet equipment to complete code printing.

## Features & Specification

- DELSA brand camera provides a variety of detection functions, such as labeling detection, code leakage detection and printing content detection.
- The power device loose roll labels, the maximum roll labels diameter is increased to 500 mm  $\Phi$ .
- Screw feeding, star plate feeding labeling, and vertical bottle body three-point positioning labeling to ensure the high accuracy of labeling.

- Double channels and double rotary plate feeding mechanism reduce the downtime of label replacement (single and double channels can be used selectively according to the production capacity).
- The invention patent special code reading device can accurately identify the two-dimensional code of the bottle body, and the unique elimination mechanism can precisely eliminate the products such as leakage code and error code.

## Technical parameters

Labeling speed	600bottles/min
Labeling precision	±0.5mm
Acquisition speed	300bottles/min
Power supply	220VAC ±10%/60HZ 3.5KW
Working temperature	0~50°C
Air Pressure	0.4~0.6MPa
Dimensions (L x W x H)	(L)2100x(W)2300x(H)1850mm
Total weight	500KG

## FAQ

**Q:** Do you provide after-sales service?

**A:** Yes. Our factory has engineers for installation and after-sales service. And we also have engineer who can speak English. We will offer the training on site. We will make the machine runs normal before going back.

**Q:** How long is the installation time?

**A:** It will take around 10 days for the installation, adjustment, training, running and we will stay there to make sure the machine works stable before we leave.

**Q:** If there is an issue on the machine, how long do you response?

**A:** We will response within 24 hours when we know your problems by mail or phone, including the shipment of spare parts. If need on site support, we will leave for your site within 48 hours.

**Q:** How long is the guarantee period?

**A:** One year guarantee. Beside the easy-broken spare parts, other hardware parts would be provided freely within the guarantee period. Diagram would be provided also for you to change them. After the guarantee period, we still offer supports.
