

L-Sealer With Shrink Tunnel Machine

Shrink tunnel with "L" sealer is combination unit runs on one circuit that works with all types of shrink films, specially tuned for non PVC, polyolefin films. L-Sealer + Shrink Tunnel are manufactured using quality raw material and are catering to the requirements of diverse industrial applications such as: Medical Equipments, Pharmaceuticals, Stationery, etc.

Technical Specification:

Voltage	230v/380v (3Ph)
Power	8Kw
Conveyor Loading	15kg
Heating furnace size (mm)	800x450x250
Dimension (mm)	1200x610x1240
Sealing Speed (m/min)	0-10
Weight (Kgs)	90
