

Spiral Screw Bucket Elevator Conveyor AT-T

This machine is suitable for the automatic feeding or horizontal conveyance of powders materials.

Features

1. Automatic control of material level, automatic feeding without material, automatic stop when material is full.
2. Screw quick loading structure for easy disassembly and cleaning.
3. The discharging switch is set up to facilitate material cleaning.
4. The hopper is equipped with a vibrator to realize smooth feeding.

Technical Data

Feeding speed	2-6 m ³ / h
Feeding tube diameter	114mm
Lifting height	1.65-1.85m (special height can be customized)
Dimension(mm)	(L)2300 *(W) 800 *(H)2100
Power supply	AC380V· 1.2kw
Air pressure	0.4-0.6Mpa
Air consumption	1 cubic meter / hour
Power supply	380V / 2.2KW
