

Liquid Irregular Shape Bag Packing Machine 220Y

Liquid irregular shape bag packing machine can pack various bag types and high sensitivity photoelectric eye color tracing, more accuracy.

Widely applied for food, Medicine, hand sanitizer chemical liquid products such as Ketchup, flavoring, Sauce, Pasty, Shampoo, cream, body wash liquid and so on.

Features:

1. Weight measuring, bag making, filling, sealing, cutting and bags counting can be done automatically.
2. Computer PLC control and automatic alarming function.
3. English and Chinese human-machine operation interface, it is easy to operate, high degree of automation.
4. Famous brand components, ensure the quality and durability of the machine.

Specification:

Model	SF-220Y
Packing speed	25-35bags/min
Measurement method	Ball valve pump
Power Supply	220V 50Hz
Power	2.5KW
Weight	300KG
Dimensions	L850*W960*H1700 (mm)
Bag size	L)40-160mm (W)35-110mm
