

FK803 Automatic Rotary Round Bottle Labeling Machine

FK803 is suitable for labeling cylindrical and conical products of various specifications, such as cosmetic round bottles, red wine bottles, medicine bottles, cone bottles, plastic bottles, PET round bottle labeling, plastic bottle labeling, food cans, etc.

FK803 labeling machine can realize a full circle labeling and half-circle labeling, or double-label labeling on the front and back of the product. The spacing between the front and back labels can be adjusted, and the adjustment method is also very simple. It is widely used in round bottle labeling in food, cosmetics, wine making, medicine, beverage, chemical industry and other industries, and can realize semicircular labeling.

FK803 has additional functions to add options:

- ① Optional automatic rotary bottling machine.
- ② It can be directly connected to the production line to realize automatic bottling and improve production efficiency.
- ③ The optional ribbon coding machine can print production date, expiration date and production batch online, which reduces the bottling process and greatly improves production efficiency.
- ④ Automatic feeding function (combined with product consideration);
- ⑤ Automatic material collection function (combined with product consideration);
- ⑥ Increase labeling device;

Technical Parameters:

Parameter	Date
Label Specification	Adhesive sticker, transparent or opaque
Labeling Tolerance	±1mm
Capacity(pcs/min)	30~80
Suit product size(mm)	φ25mm~φ100mm H:25~150; Can be customized
Suit label size(mm)	L:20-380; W(H):15-100
Machine Size(L*W*H)	≈1900*1100*1400(mm)
Pack Size(L*W*H)	≈1950*1150*1450(mm)
Voltage	220V/50(60)HZ; Can be customized
Power	655W
N.W(KG)	≈165.0
G.W(KG)	≈210.0
Label Roll	ID:Ø76mm; OD:≤260mm
