

MT-50 Semi Auto Round Labeling Machine

Semi auto sticker labeling machine is used for applying labels on all types of bottles which are in round shape, this machine is adjusted to suit various size, diameter of bottle & label, its also suitable for labeling tubes, jars, tin can, aerosol can, mineral water bottle, test tube or any other round object.

*Core principle: the sensor detects the product in place or foot in place to issue product signals, adsorption label suction head down and follow-labeling and then returned to adsorption next label, waiting for the next signal, a labeling action completed;

* Operation: put product - "determined in place (equipment detection and control or manual control) -" labeling (device do automatically) - "take out labeling products. This machine is very easy to operate, you have to just put your jars or bottles on the rubber roller and press the the handle and it will apply labels on it. The labels should be sticker and in roll forms.

Feature:

Round Bottle Sticker Labeling Machine

- > The position of labeler head is adjustable, up and down, forward and back.
- > Suitable for kinds of bottles > Good labeling quality, no air bubble, no ruga. > Compact body, need not maintenance
- > Easy operation, Easy printing. > Suitable for glass and plastic bottle > High accuracy, high quality and high speed

Application:**Round Bottle Sticker Label Applicator:**

Suitable for different size of adhesive label or adhesive film on all kinds of bottle, High accuracy and high speed, dispensing & labeling automatically. It is used in PET bottle, plastic bottle, glass bottle, Metal bottle etc.

Specification:

Model	MT-50
Voltage	AC220V/50Hz
Power	120W
Labeling speed	25-30pcs/min
Precision	±0.5%
Label roll diameter	75-250mm
Bottle diameter	20-120mm
Max Label size	W150mm*L230mm
Machine size	650*450*450mm
Machine weight	25kg
