

Labeler Equipment Double Side Sticker Labeling Machine

The servo motor economy automatic Sticker Labeling Machine is suitable for all kinds of regular and irregular containers, flat surface or round bottles, especially ideal for flat surface and square containers.

Main Features:

1. Sticker Labeling Machine adopt mature PLC control system technology, make the whole machine stable
2. This type of Automatic Labeling Machine can be suitable for square /round/oval flat bottles at the same time, Of course client can choose to make one side or double sides labeling.
3. Use touch screen control system, record bottle date,
4. Conveyor with variable speed.
5. Synchronization chain mechanism, to ensure smooth and precise calibration,
6. Transparent sticker labeling without foam, adhesive sticker labeling without wrinkle,
7. Widely used and multi-function with high flexibility,
8. Date/code printer is optional, up to 3 lines, or you can choose inkjet printer.
9. Transparent label sensor is optional,
10. Can be customized according to your requirement,
11. Other match equipment: Automatic Cream Filling Machine, Automatic Capping Machine

Technical Parameters:

Item	Description
Label roll inner diameter	φ76mm(customized)
Max Label roll outer diameter	φ370mm(customized)
Label Height	10-190mm(optional)
Labeling speed	36/min(adjustable)
Material	Stainless steel 316&304
Automatic Grade	Automatic
Driven type	Electric
Power Supply	380V, 50/60HZ, 3000W
