

## *XHL-WLZ-120L Box Packaging Machine*

This product is a modified and improved new model in combination with the domestic and abroad advanced technology. It is a high-tech product that integrates the machine, electricity, air and light. It is widely applied to the box packaging of aluminum-plastic, medicine bottle, cosmetic products, Poker cards, electronic products and other daily chemical products, or similar particles.

It can automatically fold the manual paper, open the carton, pack the box, print lot number, seal the box and so on. The machine can be used individually or integrated with other equipment as a complete production line.

### **Features**

- Adopt PLC automatic control system, frequency variable speed regulation, electrical components all adopt international famous brands.
- Photoelectric monitoring the movement of each parts, abnormal operation, can be displayed, at the same time can automatically stop the machine, for fault inspection.
- Can automatically eject the box with missing version number or manual paper.
- The box will not unload automatically if there is a missing version number or manual paper.
- Stable performance, simple and convenient operation, occupies small floor area.
- The machine can substitute the workload of 10-15 workers.

**Technical Parameters:**

Boxing speed:	30-120 boxes/minute
<b>Manual paper:</b> -Quality requirement: -Unfolded measurement: -Folding scope:	60-70g/m2, (70-210)mm*(80-250)mm, [1-4]fold
Power supply:	380V 50Hz
Outline dimension(mm):	1380*1140*1800
<b>Box:</b> -Quality requirement: -Dimension requirement:	250-350g/m2, (65-150)mm*(35-85)mm*(12-50)mm
Compressed air: -Working pressure: -CA consumption:	≥0.6MPa, 120-160L/Min 20m3/hour
Main motor output:	0.75kw
Gross net weight:	1100kg
