

DJL-16A Electronic Counter

The equipment counts and fills medicine automatically.

Capsule, soft gels, normal tablets, special shape tablets, coating tablets, pills and most solid granules are fed from hopper to counters by quiver to prevent material breakage, through the high anti-dust sensor technology and adjustable baffles at the outlet of loader into the bottle.

High anti-dust sensor technology ensures counting works accurately with good stability in heavy dust conditions, while baffles control the filling speed of material.

Application:

For capsule, soft gels, normal tablets, special shape tablets, coating tablets, pills and most solid granules. Suitable for filling in plastic bottle with square, round, flat-square and special shape bottle.
