

Aesus – Eco Wrap Labeller

The Aesus Eco Wrap labeller has the same powerful Servo label applicator head as their higher-end models but eliminates many bells and whistles to give a cost effective automatic wrap labeller.

Features:

- No bulky control box or heavy interconnecting leads;
- Compact design 'quick release' core holders and take-up roll;
- Built-in user friendly display screen;
- Custom Servo control designed perfectly for label applications with appropriate ramp-up and ramp-down;
- Built-in encoder follower circuits to precisely follow a conveyor or rotary turret drives;
- Variable speeds and adjustable gear ratios 'start delays', 'stop delays', 'missing label' advances, shift registers;
- Patented inductive label sensor that can mount right at the dispense blade to handle even Mylar labels, without the need to play with photo electrics which can dust up;
- Patented moving dispensing beak to ensure that difficult labels are precisely dispensed;
- Hook-ups for printers, barcode readers, print engines;
- Bolt-on standard options are available to handle the most demanding challenges.

Aesus Eco Wrap:

- Speeds of over 100 per minute;
- 7ft long stainless steel conveyor, 14 inch wrap belt, framed stainless stand;
- Optional Prism roller system for highly accurate wrap labelling and comes with a colour touch panel HMI screen as opposed to the standard control;
- No proprietary components;
- Maintenance-free servo motors;
- Stainless steel and anodized aluminium construction;
- Quick change reels.
