

Vertical Stick Bag Round Corner Sachet Powder Packaging Machine DCFYJ-180L

This machine is widely applied for food, pharmacy metical, and chemical products, such as milk powder, soya powder, cosmetic powder, slimming tea, medical powder, etc

Features

PLC touch screen	China Xinje brand. Omron and Siemens PLC are optional.
Language	Chinese and English. Easy language switching
Auger screw filling system	made of full SS304 stainless steel. High accuracy
Photoelectric eye control	High quality photoelectric eye. The color is accurate. Efficiently complete the benchmark.
Rounder corner die mold	it can be customized according to customer's packing requirements.

Technical specification

Model	DCFYJ-180L
Sealing type	Back sealing round corner
Measurement	Auger type (0-2g,2-10g, 10-25g,machine only matches one set)
Sealer	Horizontal: line or diamond Vertical sealer: line or diamond
Horizontal sealer	By servo motor control to pull film down
Packing speed	35 – 50bag/min (Depend on Products)
Bag Size	L: 30-180mm(adjustable) W:10-60mm (through changing bag former and rounder corner die)
Total power	1900W
Air Consumption	0.35m ³ /min, 4-6kg
Voltage	220v or 380v
Weight	380Kg
Machine size	L×W×H : (930*730*2100mm)mm
Touch Material	Stainless steel 304
Includes	Inverter, photo sensor, ribbon printer, vibrator, one bag former and one auger setOne set rounder corner die mold
