

KGF-4 Oral Liquor Filling & Sealing Machine

This machine is the main filling & sealing equipment of the Yilagai (or aluminum-plastic cover) production line, which is mainly applied in the filling and sealing of 5 - 30 ml bottles.

Filling local track, no bubble, electromagnetic sent shock, sealing rate is high.

This machine combines filling and sealing, advanced design, compact structure, the Replacement of the bottles is very convenient.

Technical Parameters

Production capacity	4800 - 6000 bottles/hour
Applied bottle	5 - 30 ml, oral liquor bottle
Sealing rate	≥ 99%
Power	1.3 KW
Power supply	AC,380V/50HZ 3 phase or customization
Overall size	1370 x 1440 x 1620 mm
