

## Automatic Strapping Machine (RS-312)

**Description:** (RS-312) Automatic strapping machine takes polypropylene tapes as the binding material, mainly used for goods packaging and binding

**Application:** Widely used for various industries, like household appliance, textile, cosmetics, banks, finance, food, printing, publishing, pharmaceuticals, daily chemicals, post, etc. Mainly banding paper cartons, wooden cases, paper parcels, cloth, and books and so on.

**Features:** Robust Construction. Efficient and Energy-saving. Automatically conduct strap collecting, thermal sealing, cutting and stopping. The new electric devices, heating fast, high speed and long use life. Add on a safety device, built for 24 hours continuous operation. Oil-free maintenance, firm strapping, high speed and long use life. Can be used individually, and equipped with designed conveyor to fulfill unmanned strapping system. Adopts international brand electrical parts which ensure the machines good quality: "MITSUBISHI" PLC control, and "ORMON" photoelectric switch control, Schneider relay.

**Strapping type:** Inching, manual operation, continual packing, ball switch and foot switch

### Technical data:

Model	RS-312
Strapping force	80kg
Strapping speed	≤1.5sec./cycle
Frame size	W800mm*H600mm
Strap width	9-15mm
Voltage	220V/380V
Power	0.75KW 50HZ
Machine dimensions (L*W*H)	1400*630*1430mm
Min.packing size	L≥50mm*W(no limit)*H(no limit)
Working table height	750mm
