

WT-630A General Round Bottle Labeling Machine

WT-630A (WT-630A-B) labeling machine for round bottles daily chemical, beverage, pharmaceutical and other industries labeling.

Labeling head the use of plants precision servo motor control bids.

Siemens PLC control system with touch-sensitive display of plants stay screen, bilingual interface.

Machine structure is simple, compact, easy to operate and maintain.

Common type of bottle means any bottle-shaped diameter do not have replacement parts. Quickly adjust.

English operation interface, random help system, workers with minimal training to operate.

Affinity advanced man-machine interface systems. Online help real human-machine interaction simple to learn a little training workers to operate.

Technical parameters

Model	WT-630A
Labeling speed	80-200 bottles / min
Labeling accuracy	±1mm
The maximum width of the label	130mm (width can be added according to need)
Be affixed size	Φ30-Φ110mm
Roll inter	Φ76.2mm
Applicable roll diameter	MaximumΦ350mm
Machine size	L2000*W1000*H1400(mm)
Use of electricity	220V 50HZ 1500W
Machine size	4-6KG 30L/min
