

## *Big Bag Sealing Machine FRD-1100V*

Can be used for food bags, medicine, local products, chemical products, electronic products, vegetable seeds, clothing, electronic originals, hardware, local products and other products packaging sealing. Widely used in factories, shops, retail sector, service industry and scientific research military sector and other industries.

1. FRD-1100V big bag sealing machine is a new model of automatic plastic film sealing machine, Max can loading 15kg package.
2. Continuous carrying, sealing and press code in one operation.
3. Electronic constant temperature mechanism and stepless speed regulating transmission.
4. Suitable for the aluminum foil bag, plastic bag, compound bag sealing.
5. Perfect sealing, high efficiency; Simple and compact structure, small volume; Beautiful shape, advanced technology, low power consumption; The advantages of convenient operation and maintenance, it is an ideal sealing machine.

## Technical Parameters

<b>model</b>	<b>FRD-1100V</b>
voltage	110/220V 50/60HZ
power	1355W
sealing speed	0-12m/min
sealing width	6-12mm
max sealing height	600mm
min sealing height	80mm
temp range	0-300°C
printing way	embrossing
Max. conveyer loading	15kg
conveyor belt width	20cm
conveyor length	136cm
weight	45kg
size	1371x580x1228mm
