

5 Gallon Bottle Wash-fill-Cap Machine QGF-100

QGF-100 Five Gallon Bottling Machine is composed of washing, filling & Capping machine into on body especially for the production of drinking water 5 gallons/ 19 liters .The whole line is made of superior stainless steel. The machine is compactly conformed to small occupation of land, high efficiency, reliable and stable quality and high automation.

Technical Data:

Model	QGF-100
Filling volume	3/5 gallon
Barrel sizes	diameter 230x420mm, diameter 276x496mm
Production capacity	100BPH
Power	3.68kw 220V 50/60 Hz
Air source supply	250L/min 0.45-0.6MPa
