

HDK200 particles automatic packaging machine

Product Details

This machine is designed for packaging of granular materials for soup, tea, powder, desiccant, monosodium glutamate, sugar and other granular materials bag.

Features:

1. Automatically bag, measuring, filling, sealing, cutting, counting, hot batch number.
 2. Using computer control system with tracking precision, push-button to set the bag length, set alarm output and display packaging quantity, speed and other advantages.
 3. Optional ribbon automatic coding, automatic advantage 1-3 lines code and shelf life.
- Packaging materials: copper paper / polyethylene, cellophane / polyethylene, polyester / aluminum / polyethylene, BOPP film, tea filter paper and other composite packaging materials

Technical Parameters:

- 1) Measurement methods: measuring cup
- 2) Measurement Range: 1 - 100ml
- 3) Packing speed: 40 - 60bag / min
- 4) bag size:
 - Length: 30 - 120mm
 - Width: 30 - 100mm
- 5) Motor power: 720W
- 6) Machine Weight: 170kg
- 7) Machine Dimensions: (L x W x H): 625 x 751 x 1558mm
