

## Vacuum Packer (DF-320)

This is the latest product developed by our company, the use of foreign advanced technology and combination of the DF series vacuum pump packing machine's characteristics, self-innovative design and production of automated assembly line packaging machinery, is the first domestic product, completely replacing imported equipment. This machine is suitable for various products for vacuum, inflatable, fitted to plastic/paper/plastic packaging.

### Characteristics:

1. Servomotor, Touch screen and PLC control
2. Vacuum pump made in Germany, busch pump
3. The mould can be replaced very easily.
4. With imported clamping chains

### Technical Parameters:

| Model                         | DF-320            |
|-------------------------------|-------------------|
| Voltage(V/Hz)                 | 220/380 50-60     |
| Pump power(m <sup>3</sup> /h) | 200               |
| Vacuum degree(Pa)             | ≤200              |
| Compress air(MPa)             | ≥0.6              |
| Cooling water(MPa)            | ≥0.15             |
| Upper film width(mm)          | 292               |
| Down film width(mm)           | 322               |
| Dimension(mm)                 | 4500 x 900 x 1800 |
| Weight(kg)                    | 1500              |
