

SJ-ZF Automatic Middle Seal Liquid Packaging Machine

Performance characteristics:

1. The machine adopts advanced microcomputer touch screen operation, man-machine interface, and the operation is simple and convenient. It can automatically complete the processes of bag making, quantification, filling, sealing, slitting, counting, coding, etc., and can be customized according to customer requirements.
2. Intelligent photoelectric control device to ensure the integrity of the packaging bag pattern, the pull bag uses the drive stepper motor control and color mark positioning, stable performance, convenient adjustment, accurate detection.
3. The overall contact material parts and casing are made of 304 stainless steel, which meets the food and drug hygiene permit standards.
4. The package adopts the back seal form and the filling is filled by the plunger volume pump, which is easy to adjust and accurate.
5. Advanced design to ensure that the machine is suitable for different industries in the use of adjustment, operation, maintenance are very convenient, and can be used with a variety of automatic metering equipment at home and abroad.

Scope of application:

Packaging materials: milk, soy sauce, vinegar, yellow wine and various liquids.

Packaging materials: polyester/polyethylene, polyester aluminized polyethylene, polyester aluminum foil polyethylene, paper polyethylene, nylon, PE and other heat-sealable plastic film.

Technical parameters:

型号	SJ-ZF1000	SJ-ZF2000
制成袋长mm	50-150	50-250
制成袋宽mm	65-150	65-175
包装薄膜宽度mm	150-320	150-380
包装容量ml	50-550	200-1000
包装速度bags/h	1100-1300	1100-1300
功率Kw	2.1	2.5
电压V	220	220
外形尺寸mm	1050x850x2050	1050x850x2050
整机重量Kg	370	380
