

Patty forming Machine CXJ100-II/400-III/600-III

This Patty forming machine can automatically perform various procedures such as meat filling, forming and output, forming a fully automatic prepared food line when connected with the battering machine, preduster, fryer, cooking machine, instant freezer and packing machine, sharing the good features of high production capacity and stable quality. Endless patterns can be designed for your products: round, square, ellipse, triangle heart, cartoon, star, etc.

- Electric apparatus parts: using original Germany Siemens PLC processor with touch screen operation, Chinese/English operating system and automatic failure alarm system.
- Safe device: Magnetic protection switch (safe cover), electric door linkage mechanism and electrical conversion device.
- Hydraulic parts: Adopting the Vickers, Stauff, Parker, Intergrade Hydraulic original parts to guarantee the stable running of the whole machine.
- Pneumatically system: Adopting the completely Germany Festo original system.
- This machine is made of stainless steel and portionon-metal material. It is safe and reliable, and has met the HACCP standard and gained the CE certification.

Technical Parameters:

Model	CXJ100-II	CXJ400-III	CXJ600-III
	Patty forming machine	Automatic patty forming machine	Automatic patty forming machine
Installed power	0.55kw	11.12kw	15.12kw
Output	36pcs/min	200-600kg/h	500-1000kg/h
Belt width	130mm	400mm	600mm
Patty thickness	6~15mm	6~25mm	6~40mm
Patty max diameter	100mm	135mm	150mm
Dimension	970x600x1400mm	2820x850x2150mm	3200x1200x2450mm
