

## ZHJ-200 Automatic Cartoning machine

This is one of the perfect box filling machines with sound quality. The machine supply a box filling solution applied to Aluminum plate blister, bottle and soft tube in packaging of pharmaceutical, food, chemical and cosmetics. The latest and developed technologies adopted to this equipment ensure the speed and accurate work in stably.

### Structure & Function

- Assembled of instruction-paper folding, box forming, printing and sealing.
- Open box through negative pressure.
- Reliable and efficient inputting and transporting system.
- Balcony style designs in structure comply to GMP standard.
- HMI humanized operation system.

### Parameters

Model No.	Extreme Speed	Specifications of Box	Specifications of Instruction paper	Electricity Supply	Power	Air pressure	Air Cost	Size of Shape (mm)
<b>DXHPX200</b>	240(box /min)	Paper Weight: 300-350g/m <sup>2</sup>	Paper Weight: 55-65g/m <sup>2</sup>	AC380V/50Hz	5.5KW	0.5-0.8MPa	1.0m <sup>3</sup> /h	4280x1980 x1820
		Length:78-180mm	Length:110-180mm					
		Width: 33-90mm	Width:130-270mm					
		Height: 15-16 mm
