

Square Bottle Labeling Machine

Feature:

- 1) Two-stage pendulum spring-type delivery clutch: additional belt brake, high-speed constant tension label delivery
- 2) German and Japanese sensor detection, the sensitivity is high and the adjustment is convenient, which ensures the accuracy of labeling
- 3) The labeling parameters can be stored, 6 sets of labeling parameters can be preset, and the product can be changed without resetting. Replace different specifications or use different production capacity, just adjust different parameters. No need to adjust the bottle labeling machine again, greatly improving round bottle labeling machine efficiency

Application:

The square bottle sticker labeling machine can be used for water, beverage, food, daily product, pharmacy, etc

Product specification:

Size of Machine	2800(L)×1450(W)×1360(H)mm
Labeling Speed	60-200 pcs/min
Height of Product	30-280mm
Diameter of Product	20-200mm
Height of Label	5-150mm
Length of Label	25-300mm
Accuracy of Labeling	±1mm
Label roll inside diameter	76mm
Label roller outside diameter	320mm
