

Automatic Food Tray Top Sealing Film Machine with Date Coder LD802D

Automatic food tray top sealing film machine with date coder with date printer belong to automatic plastic tray box packing machine, the whole machine is made of stainless steel 201. Simple and reasonable structure, sealing of high efficiency and easy operation; Suitable for various sizes of plastic boxes, plastic trays and special-shaped plastic containers heat sealing, it's widely used in pharmaceutical, cosmetic and food industries.

Advantage:

1. The whole machine adopts 201 stainless steel and aluminum alloy material, according to requirements of the GMP for food;
2. Adopts pure electric drive and air supply, suitable for small businesses, restaurant, hotel, shop supermarket and canteen management place;
3. LCD display control sealing time, photoelectric sensor film location tracking, after sealing design accuracy;
4. Automatic sealing process, saving manpower, improve the sealing quality.
5. Different material, different thickness of a thermal sealing material all can use;
6. Date printer, tape type coding date numbers on film.
7. Can be used with a variety of equipment collocation, such as liquid filling machine, paste filling machine, filling packing line etc.;
8. Special size and shape of tray can be customizing mould, exchangeable for different size.

Technical parameters

Model	LD802B
Voltage(V)	AC110-220V/50-60Hz

Power(W)	500-1000W
tray size (mm)	50-250mm
Packing speed(pcs/hour)	800-1000
Sealing materials	PP,PE,PET,PS and etc.
Working temperature	0-300 °C
Air pressure range	0.5-0.8Mpa
Net Weight(kg)	125kg
Machine dimension(mm)	1250*850*750mm
