HFFS-350S/HFFS-400S Horizontal Packing Machine

As one of the most typical horizontal flow wrapping machine, Spack's automatic horizontal Flow-wrap machines provide an affordable and reliable packaging solution. Our horizontal flow wrapping machine suits a wide range of applications, and it is the ideal machine for a multitude of applications with small and medium size production requirements.

The main characteristics of its ergonomic design are quality construction and reliability, with easy cleaning and operation.

Features:

- Ergonomic design are quality construction and reliability.
- Ease to use.
- Quick changeover.
- Higher speeds.
- Easy cleaning and operation.
- Minimal maintenance requirements.

Specifications:

Model	HFFS-350S	HFFS-400S
Machine's Material	Stainless Steel 304 (SS304)	Stainless Steel 304 (SS304)
Voltage	220V 50-60Hz (Customizable)	220V 50-60Hz (Customizable)
Machine Speed	20-200 bags/minture	20-200 bags/minture
Bag Size Range	L: 40-240mm W: 80-160mm H: 10-80mm	L: 40-240mm W: 80-185mm H: 10-80mm
Maximum Film Width	350mm	400mm
Total Power	1.5KW	2KW
Machine Weight	600kg	420kg
Machine Size	4000×1250×1500mm	4000×1250×1500mm
