

High Efficient Stainless Steel Flour Sifter Machine ZS-600

Vibrating Screener machine is a kind of high-precision fine powder Screening Machine with low noise and high efficiency. Electric Sifting Machine is designed for accurate grading or sizing of wet and dry materials up to five fractions in one operation. The Sifter Machine is closed structure, its screen replacement is convenient, easy to operate, the machine is made of high quality stainless steel, suitable for a variety of industries.

Technical Parameters:

- Model No.: ZS-600
- Vibration frequency(r/min): 1500
- Dimension(L*W*H)(mm): 800*700*1150
- Capacity(kg/h): 200-1500
- Weight: 250
