

## *CHIC-50B Tea Powder Filling Sealing Machine*

The powder filling machine is designed in accordance with the national GMP standard. The machine can be combined with the bottling machine, the cap pressing machine, the labeling machine and other equipment to compose pipeline.

The Device Function Configuration Can Be Adjusted According To Your Requirements.

### **Applications:**

It is suitable for filling powdered materials such as milk powder, glucose, protein powder, cocoa powder, coffee powder, rice powder, solid drink and so on.

### **Features:**

- All stainless steel structure, easy to disassemble and clean.
- High precision servo motor control filling, accurate metering.
- A variety of product adjustment parameters formula can be stored, ready for later use.
- The replacement of spiral accessories can adapt to a variety of materials such as ultrafine powder to small particles.
- Touch screen PLC control, no bottle, no filling, no cover.
- Can be applied to food, medicine and corrosive chemical raw materials. Centralized dust removal, no dust pollution in the workshop.

**Technical Parameter:**

<b>Model</b>	<b>CHIC-50B</b>
Filling capacity	1g-1kg,1kg-5kg(can be customized)
Filling speed	25-45 BPM
Filling accuracy	±1%(different volume and material,accuracy will be little different)
Feeder (Optional)	150L(different material volume is different)
Voltage	220V/380V
Power	3KW
Filling method	Screw metering
Outline dimension(MM)	2000x900x1850mm
Weight(KG)	300
