

BS-560B Automatic Heat shrinking Machine

The machine adopt anti-viscosity, high temperature resisting, thermostatic super fine aluminum-alloy sealing cutter. Adjusting precision of temperature and making bags length is super; the running is steady and dependable. It is suitable for film contraction packing in pharmaceutical, food, and toothpaste, cosmetics, electron and toy industry

Technical Parameters:

Model	BS-560B
Packing Material	PO、POF
thickness*width	0.012~0.05*200~550 卷径(max)*300(mm)
Power Supply	380V/50Hz,220V/60Hz
Power	6.85kw
Produce the ability	20-30bags/min
Contract the speed	0-10m/min
Machine Weight	550kg
Air Prossure	0.5Mpa
Max Packing Size	560*320*125mm(L*X*H)
Shape size	3450*850*1400mm(L*W*H)
