

Automatic Sauce Packing Machine GG-688J

Features

- It is controlled by computer program, easy to operation, convenient to maintain, stable performance, reliable quality and so on.
- The speed can change through touch screen.
- The bag's length can change through touch screen. It is accurate and convenient.
- Intelligent temperature controller (XMT), constant temperature control the sealing degree to make sure the quality of sealing.
- Change some part can com true three sides sealing, four sides sealing, flat bag, pillow-like bag' making.
- It has special photo electricity fixed position to make sure complete of picture.
- The volume can be change (in the range) on the touch screen.

This Automatic Sauce Packaging Machine adopts correcting system controlled by microcomputer, owing to a response signal is and set pass through microcomputer it can accomplish whole set to synchronization, sack length, position fixing, voluntarily follow the tracks of light-mark and voluntarily diagnose trouble and show to screen.

Packing materials:

PET/PE,PET/PET AL/PE,PET/AL/PE,Paper/PE,BOPP/PE,nylon and other heat seal material,Thickness≤8 wire,core inner diameter of 75mm.coil outside diameter≤300mm.

Advantage of machine:

- Speed Limitless: Packing speed shall be limitless arranged in some extend , which can best match the steps of making bag/fulfilling/sealing and cutting .
- The bag length can be set free at some specific range , using the “Bujin” Motor , making bags stable and the speed can be controlled .
- The process of bag-made can reach self-automatic inspecting/location/sealing and cutting when there are the signs of color locating in packing films .
- Equipment itself has the function of self-diagnosing and error-pointing .
- Controlling temperature by high exact PID , which ensure the sealing quality of different packing film material and will be in more stable of hot sealing .
- Conveniently operate and repair , because of its intermittent simple structure.
- Common using available :Packing 1-50g in a bag by changing the measure glass.
- Automatically print production lot No., and adding the easy-tear type convenient.

Technical Parameters:

Model	GG-688J
Bag size	L: 50-300mm
	W: 30-200mm
Capacity	28-60 Bags/min
Filling Range	5-1000 ml
Power	220v、 50Hz、 1.8kw
Weight	350 kg
Dimension	1100*1000*2100 mm(L*W*H)
