

ZS-YTMP2S 2/4 Heads Magnetic Pump Liquid Bottle Filling Machine

This kind of semi-automatic filling machine is equipped with stainless steel magnetic pump, according to pump material; they can be divided into 304 and 316 magnetic pump. The 316 magnetic pump is suitable for filling corrosive liquid like insecticide, solution. The magnetic pump filling machine has the advantage that it can fill liquid more accurately, suitable for filling small volume products like perfume, essential oil. It is widely used in beverage, cosmetics, food and daily chemical industries.

Technical Parameters:

- Machine Model: ZS-YTMP2S
- Voltage/Power: AC 220V/110V 1000W
- Pump Material: 316 Stainless Steel
- Filling Range: 1-6000ML/1-4000ML
- Max Flow Rate: 6L/min/4L/min

- Max Suck Distance:2 meter
- Anti-leaking Function: Available
- Memory Function: Available
- Filling Nozzle(OD Size):4mm and 6mm
- Net Weight:9.2kg
- Package Weight:10.5kg
- Machine Size:400*260*250mm
- Package Size:465*410*310mm
