

X1 Model Standard Pallet Wrapping Machine

X1 pallet wrapping machine uses LLDPE stretch film as the main packing material to wrap the bulk cargos stacked on the pallet. Film provides extra support during transportation and storage to protect them from dust, moisture or damage. Smart Wasp X1 pallet wrapping machine has been widely used in industries such as glassware, tools, electric & electronic, paper, pottery, food & beverage, etc.

An automatic pallet wrapping machine is a machine used for wrapping pallets of products in a stretch film for storage or transportation. The Pallet Stretch Wrapping Machine is designed to wrap the pallets quickly, efficiently and securely, without the need for manual labor.
