

Tube Filling Sealing Machine MULTI PACK -TFS – 50

We are leading manufacturer of tube filling machines and we provide in customized designs including filling machines with automatic and semi-automatic features. Our tube filling equipment suits ideal for packing ointment, gel, cream, toothpaste, grease, soas, etc. It is simple to operate and consists of one rotating disc with interchangeable tube holding sockets for different sizes of tubes.

Only empty tube should feed manually, after that all process like filling, closing, coding & ejection process is automatic.

Important Features:

- Very easy to operate
- It contains one rotating disc and interchangeable tube holding sockets of different tubes size.
- Empty tubes need to be feed manually.
- Rest all process like filling, coding and ejection, closing etc are automatic

Sailent Features:

- All operation is fully automatic except feeding of tubes.
- Sturdy & compact design.
- No Tube – No fill System to avoid spillage.
- No Tailing (No Dripping) achieved by special pneumatic string cutter.
- Digital counter provided for counting the filled tubes.
- Automatic ejection of the filled & sealed tubes.
- With few modifications it can be used to fill Tins, Jars, etc.
- No Tube No Fill device (material will not discharge from hopper, when there is no tube no fill to avoid spillage.

- Machine is provided with SS hopper with thermostatic control to keep the material hot, while filling for a smooth flow of material while filling in the tubes.
- Machine is provided with stirring device so that no active ingredients in the material cannot stick to the inner wall of hopper, which contains your material.
- Machine is supplied with all contact parts made of SS 316 material. 25 – 30 Liters capacity container, acid proof.
- Motor with variable speed.
- Size parts of one tube size and one filling products.
- Pump unit in Stainless Steel for filling volume choose alternatively one (1) 5ml to 10ml (2) 2 – 50ml

Specification

MODEL NO.	MULTI PACK -TFS – 50
Output Speed	Up to 40 tubes/min filling capacity
Volume	5gm to 200gm
Tube Size Dia	12 min to 31 max mm
Tube Size Length	50L min to 200L max mm
Power Consumption	2.5 Kw. Max.
Size	1450 (B) x 1150 (D) x 1750 (H)
Net Weight Approx	285 Kgs
Gross Weight Approx	515 Kgs
