

CKLY300/350/500 Ice Popsicle Liquid Strip Filling Sealing Machine Single Lane

This ice Popsicle liquid filling machine uses microcomputer control system, the stepper motor controls the length of the bag, intelligent temperature controller (to ensure that the temperature error control within 1 °C). You can choose three-sided seal, four-side seal and back seal, to meet you requirements.

Widely used in liquid, flavoring oil, beverages, jelly, shampoo, tomato ketchup, sauce, honey and so on.

Through the touch screen settings, Ice Lolly machine can automatically complete the Making bags, weighing, cutting, sealing, cutting, counting, printing date and other functions.

The packaging materials for ice popsicle filling machine: paper, polyethylene, cellophane, polyester, BOPP film, PE and other heat-sealing composite packaging materials.

Technical Data

Model	CKLY350	CKLY500	CKLY300
Voltage	1.8KW220V	1.8KW220V	1.8KW220V
Capacity	10-300ML	100-1000ML	10-120ML
Film width	50-300mm	180-420mm	50-280mm
Making bags size	L:30-300mm W:20-140mm	L:80-300mm W:80-200mm	L:40-150mm W:20-130mm
Machine Dimension	780*920*1980mm	780*920*2100mm	820*980*1680mm
Machine weight	400KG	450KG	400KG
Film thickness	0.03-0.07MM	0.03-0.07MM	0.03-0.07MM
