

GLFLP-600 Tablets Laser Engraving Machine

Technical Advantages:

1. Higher speed

- Max.stable speed 6000pcs/min ($\phi 6$ Round tablets).

2. Integrative control system

- 1) Using the integrative sport control modules, each transmission module drives with each other to achieve seamless connection, with higher reliability and adjustability.
- 2) Highly integrated single industrial computer control system, with higher operability.

3. Ergonomics design

- a) Better man-machine design, strong maintainability, complete visual cover design.
- b) Suspension rocker arm control panel mechanism, more convenient debugging operation.

Technical Parameters:

Model	GLFLP-600
Max.stable speed	6000pcs/min ($\phi 6$ Round tablets)
Applicable range	Plain tablet、Coated tablet、Sugar coated tablets
Tablet size	Round tablet : diameter5-12mm, thickness2-8mm (Non-standard customization is available)
Power supply	AC220-240V 50/60Hz
Air pressure、consumption	4-7bar、200L/min
Wattage	About 6.0KW
About	2000mm(L)×900mm(W)×2100mm(H)
Complete machine weight	About 900Kg
