

14 Head Multihead Weighing Machines SW-M14

Standard 14-head multi-head weigher can be used to weigh granular materials: potato chips, crisps, puffed food, biscuits, chocolate, candy, dried fruit, nuts, seeds, fragile products, etc. At the same time, it is also called computer combination weighing machine and it is one of the important role in the food packaging line and production lines.

Standard 14-head multi-head weigher

- IP65 waterproof, high grade of sanitary design, use water cleaning directly, save time while cleaning;
- Modular control system with load cell weighing technology, more stability, higher precision and lower maintenance fees;
- Production records can be checked at any time or download to PC;
- Photo sensor checking to satisfy different requirements;
- Preset stagger dump function to stop blockage;
- Design linear feeder pan deeply to stop small granule products leaking out;
- Refer to product features, select automatic or manual adjust feeding amplitude;
- Food contact parts disassembling without tools, which is easier to clean;
- Multi-languages touch screen for various clients, English, French, Spanish, etc.

Specification

| Model | SW-M14 |
|----------------------|--|
| Weighing Heads | 14 |
| Target Weight Range | 10-1500 g |
| Weigh Hoppers Volume | 1.6L or 2.5L |
| Speed | 120 bags/min |
| Accuracy | ±0.1-1.5 g |
| Touch Screen | 7" or 9.7" Touch Screen option, mufti-languages option |
| Voltage | 220V/50HZ or 60HZ; single phase |
| Drive System | Stepper Motor (Modular Driving) |
