

## ***BZ014 Automatic ketchup paste packaging machine***

This machine is a fully automatic paste packaging machine, used together with an air compressor, with faster speed and longer service life. The whole body can be made of 316 or 304 food grade stainless steel, which can completely allow the machine to contact food

1. This machine can be used with roll materials, plastic film, composite film, aluminum foil, filter paper, non-woven fabric and other heat-sealable composite materials
2. Intelligent control, automatic packaging is more accurate and fast.
3. All stainless steel food grade energy saving
4. Double vibration device, almost suitable for all kinds of powder and granule packaging
5. Split design, high equipment efficiency, low noise and stable operation
6. Easy to operate, the filling weight can be set directly on the display screen or the button function screen (customizable)

### **Technical Parameters**

Sealing Type	Three-side sealing / Back sealing
Weighting Range	10-300ml ( $\pm 1\%$ )
Film Width Range	50-240mm
Bag Length Range	20-160mm
Power Supply	220V/110V
Plug Type	Custom your country plug
Machine Dimension	540*1170*1530mm
Packing Dimension (2 Case)	1230*600*1330mm
Power Consumption	600W
Machine Weight	125KG
