

HCCW-500 Large Capacity Weight Testing Machine

Large-capacity weight testing machine is automatic production equipment.

It is mainly used for online weight detection of large-sized products, such as the detection of missing parts in the whole box of products and the whole bag of products; such as the lack of parts in a whole box of medicines, the weight of a bag of feed or fertilizer is not enough, a small amount or too much in the whole box of food many. The weight can be rechecked, and the selection can be eliminated.

It has a wide range of applications and can be used in pharmaceutical, daily chemical, light industry, food, chemical, hardware, plastic, agricultural and sideline products, and other industries.

Technical parameter

Model	HCCW-500
Weighing Range	20-150kg
Highest Sorting Accuracy	±10g
Detection Speed	Max Conveying Speed : 20m/min
Culling Method	Push Rod Type
Height Of Conveyor Belt From The Ground	750±50mm
