

## HC-360 Quadruple Sachet Packing Machine

HC-360 quadruple pouch high-speed packaging machine adopts a film-forming sealing design with a maximum speed of 200 bags/min. It is specially designed for high-speed packaging of small pouches. It can realize four-station synchronous filling, accurate dosage accuracy, and smooth and beautiful bag-making. This machine can realize three-sided sealing, four-sided sealing, double-linked pouches, stand-up pouch, and other pouch shapes to meet the different needs of customers.

### Technical parameter

Model	HC-360S
Pouch type	daypack stand-pouch/flat pouch
Min. pouch size	50×110mm
Max. pouch size	90×220mm
Packing Speed	<200 pouch /min
Packing Range	Max 100ml
Filling Station	4 station
Power	16KW
Volt	380V 3P 50Hz
Air Consumption	600L/min
Air Pressure	0.7MPa
Machine Weight	3000kg
Machine Dimension	9200×1500×2000mm
