

## *Ropp Cap Sealing Machine*

Vitro Pharma Machine provides Automatic Rotary Bottle Washer which is a compact and highly efficient machine with an elegant look. The bottles are loaded on the subsequent indexing part of the rotating platform and are cleaned in a series of operations. This Automatic Rotary Bottle Washer is specially designed for bottle holders to hold bottles with neck diameter. The bottles placed in an inverted position in these cup-shaped holders and spray showers which do the external cleaning of the bottles.

Ropp Cap Sealing machine is broadly demanded in food processing, pharmaceutical, chemical, oil and other allied industries for packing purposes and sealing caps.

### **Features**

- Easy to install.
- High optical efficiency.
- Highly reliable performance.
- Proper functioning.
- Single motor synchronizes conveyor, star wheels and head.
- Integrated control panel for ease of operation.
- A special guide for small bottles.
- Variable sealing pressure for different caps shapes & sizes.
- Parts made out of stainless steel.

## Technical Specification

<b>Output</b>	30 - 40 containers / minute [depends on efficieny of operator]
<b>Container Size</b>	8 mm - 25 mm neck diameter
	[vial and screw bottle heads can also be sealed]
<b>Power</b>	0.5 HP, 440 volts, 3 Phase, 50 Hz.
<b>Overall Dimensions [mm]</b>	500 [d] x 550 [w] x 1300 [h]
<b>Case Dimensions [mm]</b>	600 [d] x 650 [w] x 1400 [h]
<b>Net Weight</b>	200 Kgs
