

Tray Vacuum Skin Forming Machine KB-20

Body mounted packaging machines are widely used and have low operating costs. Packaging any shape of items does not require a mold, packaging procedures are simple, and product packaging is transparent, and beautiful, and three-dimensional, it can also isolate bacteria. Prevent moisture and corrosion, and effectively extend the shelf life.

Parameters

Product Name	Tray Vacuum Machine
Machine Size	600*380*400mm
Productive Power	120-320 box/h
Max Diameter of Film	180mm
Max Width of Film	250mm
Sealing Film	Heat Sealable Film
Voltage	220V/50HZ
Tray Size	Support Customization
Power Consumption	1000W
Pump Capacity	10M ³ /H
