

MIC MY-60FB Milk Packing Machine

The Automatic liquid packing machine stands as a pinnacle of innovation in the packaging industry, offering unparalleled performance in liquid packaging. With its advanced features and cutting-edge technology, this machine ensures precise and efficient packaging of granular products. Let's explore its capabilities, highlighting its role as an automatic pouch filling machine and pouch bag filling machine.

Precision Packaging for Liquid

Accurate Filling Mechanism: The Automatic liquid packing machine is equipped with a sophisticated automatic pouch filling mechanism designed to precisely dispense granules into individual pouches. Utilizing advanced dosing technology, this machine ensures uniform filling levels, minimizing product inconsistencies and optimizing packaging quality.

High-Speed Operation: Engineered for high-volume production, this machine offers rapid filling speeds, maximizing throughput and productivity. Its automated processes enable continuous operation, significantly reducing packaging time and labor costs. With customizable settings and adjustable parameters, it accommodates varying production requirements, enhancing operational efficiency.

Versatile Packaging Solutions: The Automatic liquid packing machine boasts versatility in accommodating a wide range of pouch sizes, materials, and sealing methods. Whether packaging granular products such as coffee, spices, or snacks, this machine adapts seamlessly to diverse packaging needs. Its flexible design allows for quick changeovers between different pouch formats, facilitating production versatility and minimizing downtime.

Enhanced Performance as a liquid packing machine

Milk packing machine: As an automatic pouch filling machine, the milk packing machine streamlines the packaging process by automating the filling, sealing, and labeling of pouches. Its precision filling mechanism ensures accurate product dosing, while automated sealing mechanisms guarantee secure pouch closure. By eliminating manual intervention, it enhances packaging efficiency and consistency.

Efficient sachet liquid packing machine: With its pouch bag filling capabilities, this machine caters to a variety of milk packaging requirements. Whether filling stand-up pouches, flat pouches, or zip-lock pouches, it maintains product integrity and presentation. Its adaptable design accommodates different bag styles and sizes, allowing for seamless integration into various packaging workflows.

Technical Parameter

Model	MY-60FB(normal type)	MY-60FB(high speed)
Capacity	30-50 bags/min	60-100 bags/min
Range of measurement	1-50g(need change auger screw)	1-20g(need change auger screw)
Accuracy percent	<u>2%</u>	<u>2%</u>
Bag size	(L)20-145 (W)15-100mm	(L)20-145 (W)15-100mm
Sealing Type	3 or 4 side sealing	3 or 4 side sealing
Power	1180W	1180W
Total power	380V/50HZ 220V/50-60HZ	380V/50HZ 220V/50-60HZ
Packing material	Paper/the polyethylene, nylon/polyethylene, tea filter paper, etc	Paper/the polyethylene, nylon/polyethylene, tea filter paper, etc
Net weight	230kg	230kg
Overall dimensions	(L)800*(W)800*(H)1700mm	(L)800*(W)800*(H)1700mm
