

JS-FJ1 Automatic Jar Can Bottle Protein Milk Powder Filling Machine

The automatic powder filling machine is suitable for the filling of various powdered materials in the food, chemical, daily chemical and other industries, such as coffee powder, milk powder, match powder, flour, corn flour, chili powder, protein powder, meal replacement powder, fruit powder, etc.

Feature

1. The machine is suitable for filling bottles, cans, boxes and other containers. It can be used for multiple purposes, which increases the production value of the equipment.
2. The screw meter is driven by a servo motor, which has the advantages of high precision, fast speed, long life and stable performance.
3. The transparent combined material box can observe the material status in real time, and can be easily cleaned and maintained without tools.
4. Equipped with multiple high-precision induction electric eyes, no filling is required if there are no bottles, and no filling is required if there is no logistics.

Specification

Filling Speed	20-35 cans/min
Filling Range	100-5000g
Applicable Bottle Size	customized according to customer requirements
Machine Size	3000(L)*1200(W)*2100(H) mm
Voltage	220V, 50/60HZ
Power	3Kw
Machine Weight	1000KG
Air Pressure	0.4-0.6Mpa
