

CFK-3500C Fully Automatic Capsule Filling Machine

If you want to maximize your capsule filling results, then our most advanced capsule filling machine is the CFK-3500C. Its 12-station rotary design and 9 innovative features make the capsule filling precision and intimacy more and more mature.

Features

Upgraded for Ultra-Precise Operation: The upgraded drive mechanism delivers increased stability for vibration-free, precise running yielding excellent precision fill after fill.

No Downtime Due to Clogging of Molds: The integrated tools that are used for cleaning work prevent powder buildup on the molds which results in clogging. You can continue production of capsules knowing that there is no need to stop the press and unclog molds frequently.

Efficient Unloading: With its built-in silicone pads, you can easily eject capsules stress-free without compressed air. And the bagless design makes removing waste a breeze.

Deeper Cleaning Power: Our machine incorporate a dual debris removal system, suction and targeted air jets. No particle shall remain!

Maximum Safety and Control: Advanced, high-end, German electronics assure the ultimate in precision, safety monitoring, & control.

Super User-Friendly Display: Intuitive touch screen control panel makes whirligig machine so easy to use! Clear settings screens and easy monitoring!

Specification

Output:	210 000 capsules/hour/
Machine Weight:	2200Kgs
Dimensions:	1435 (+550) mm*1248 (+282.5)mm*1960mm
Power Supply:	380/220V 50Hz
Motor Power:	11.5KW (standard)
No.of segment bores	25 holes (two rows)
Vacuum:	72m ³ /h,-0.03~-0.05Mpa
Dust:	20Kpa 210m ³ /h(A)
Noise:	≤80DB(A)
Making rate Empty capsule:	≥ 99.8%
Suitable for Capsule:	000、00. 0, 1, 2, 3, 4. 5#
Filling error:	±2.5%- ±5%
