

MK 101 Small VFFS Packaging Machine

The MK-101 is an small automatic vertical form fill seal packaging (VFFS) machine designed to package granular and free flowing powdered products. This machine uses volumetric cup dosing system and is integrated with continuous type sealing system to produce center sealed, 3 side sealed and 4 side sealed pouches / bags.

Adding to its versatility, the 100 series can be integrated with most filler for granules, liquids, pastes, free flowing powder etc.

Application:

Free flowing powders, granules like tea grains, salt, herbs, powdered spices, grains, sugar, and detergent powder, agricultural and pharmaceutical powders.

Features:

- Robust, compact and easy to maintain
- Lowest power consumption requires single phase power only
- Easy to operate hence no need of skilled labor
- All contact parts of SS food grade

Technical Specifications:

Filling range	0.5 to 250 gms
Output Speed	up to 30 PPM
Packaging Material	Any heat sealable film, laminated film in roll srock
Bag Size	W: 30 to 150mm
	L: 40 to 200 mm
