

Automatic Capsule Filling Machine JSCP-series

Joysun Pharma Automatic Capsule Filling Machine is a perfect upgrading alternative for the Semi-Automatic Capsule Filling Machine. It is also the prototype of our newly invented liquid capsule filler. It has automatic functions including capsule feeding, capsule body-cap separating, powder filling, non-filled capsule rejecting, capsule auto-locking, closing, gel capsule discharging. It is one of the popular types among encapsulation machines. We have a wide range of hard gel capsule filler with various output from 12000 capsules per hour to over 150000 caps each hour. Or another ultra-fast model: 228000 filling capacity. The below video shows 'how to fill empty capsules with powder' by our automatic capsule filler.

Filler:

Model	JSCP-200	JSCP-400	JSCP-800	JSCP-1200	JSCP-2500
Output(pcs./h)	12000	24000	48000	72000	150000
Filling Holes	2	3	6	9	18
Capsule Size	00#-4#	00#-4#	00#-4#	00#-4#	00#-4#
Total Power	3KW	3KW	4KW	5KW	8KW
Voltage	Customize upon buyer's need				
Overall Weight	600Kg	700Kg	800Kg	900Kg	1500KG
Dimension(mm)	640*670*1700	730*950*1700	700*900*1800	800*1000*1800	1100*1300*2000
